- b) Acquisition methods;
- c) Strategic Sourcing;
- d) Bidding procedures; and
- e) Establishment, composition and functioning of bid committees.

13.1 Procurement Thresholds

It is a contravention of this policy to split requisitions in order to circumvent the following threshold values:

Threshold Value (VAT Exclusive)	Procurement Method
Up to R2 000.00	Petty Cash
R2 000.01 to R10 000.00	One Written Quote
R10 000.01 to R30 000.00	Three Written Quotes
R30 000.01 to R500 000.00	Three Written Quotes
Above R500 000.00	Open Bid Process

13.2 Acquisition Methods

13.2.1 Petty Cash

The petty cash system may be used for transactions with a value of equal to or less than R2 000.00 (VAT Exclusive).

The procurement of goods or services by means of petty cash will be done in terms Sasria petty cash policy and procedures.

13.2.2 Request For Bid (RFB)

The RFB process is generally used when the specification of the required product and/or service is well defined and specific bid responses are required rather than creative responses.

The selection is based on compliance to the requirement, cost and other criteria through a competitive process.

13.2.3 Request For Information (RFI)

If sufficient information is not readily available with which to draft terms of reference/ specifications, an RFI process may be followed in order to obtain more information from the market to prepare the specification. From RFI responses, a specification is drawn that will be issued to the market. The data contained in the RFI may vary in accordance with the type of requirement.

No award can be made following an RFI process; however, the subsequent request for bid (RFB) or request for proposal (RFP) may be restricted to respondent suppliers provided that it was so specified in the RFI document.

13.2.4 Request For Proposal (RFP)

This method should be followed where the functional requirements are clear but bid responses will be in the form of proposals that will differ in the delivery/ achievement of the set functionality/ requirement.

The selection is based on the quality of the proposal, its cost and other criteria through a competitive process.

13.2.5 Request For Quotation (RFQ)

The RFQ process should be followed for all requirements up to the quotation threshold of R500 000.00 (VAT Exclusive). A minimum of three quotes should be obtained if possible, based on the value of the purchase.

13.2.6 Approved Panel of Suppliers

Where goods or services are required on a recurring basis, a list of approved suppliers may be established through a competitive bidding process. The award for specific projects under this arrangement may follow a closed bidding process to the suppliers on the Panel.

Sasria, at its sole discretion, may make changes to the Panel of approved suppliers through a competitive bidding process. Such changes may include:

- a) adding suppliers to the Panel to promote preferential procurement; or
- b) expanding or restricting service or product categories and/ or specifications that can be procured from the Panel.

13.2.7 Limited/ Confined Bidding

13.2.7.1 Sasria shall use limited bidding process only in exceptional circumstances if it presents a clear advantage over competition, such as follows:

- a) In cases of emergency where it becomes impossible or impractical to follow the standard procurement process.
- b) Closed bidding process in cases where there is proven limited competition in the market and there is good reason to restrict the procurement process to only those few bidders i.e. instances where Sasria has reasonable justification for standardisation on a certain brand/ product.
- c) Single source bidding where, after a thorough analysis, there is good and justifiable reason to restrict the process to only one bidder e.g. when a task/ work represents a natural continuation of previous work carried out by the supplier. When such continuity for downstream work is essential, the initial RFP should outline this prospect, if practical.
- d) Sole source bidding where no competition exists and it is proven that only one supplier exists e.g. sole distribution rights.

13.2.7.2 Such exceptions, with the justification thereof, shall be recorded and approved in line with the DoA.

13.2.7.3 Poor planning shall not be acceptable as justification for the use of limited bidding.

13.2.8 Emergency Procurement

13.2.8.1 An emergency procurement may occur when there is a serious and unexpected situation that poses an immediate risk to health, life, property and or environment, which calls Sasria to action and there is insufficient time to invite competitive bids.

13.3 Strategic Sourcing

Sasria shall adopt strategic sourcing principles when procuring the required goods and services. The process begins with analysing business needs and historical spending patterns, followed by conducting data collection and market analysis that guide the selection/ outlining of a relevant sourcing strategy. The market analysis helps provide insights to the potential suppliers, products and related prices.

14. CONTRACT MANAGEMENT

- 14.1** Sasria aims to build long term strategic supplier relationships through proper contract management. Contracts will be managed in a manner that ensures that Sasria achieves increased savings, good quality and on time delivery in line with all the agreed requirements and conditions set out in the contract.
